

Course name: Complex Specialization (Interior Design)

Course code: YAWCSPAMNF

Hours per week: 0 lecture / 6 practice / 0 laboratory; F: Final Mark / 10 credits

Department of Design

In charge: Prof. Dr. Kiss Gyula Gábor DLA

For students of MSc in Architecture

Pre-requirements for Erasmus students: 4 semesters Architectural Design

OBJECTIVE OF THE COURSE:

To learn by doing about how a design can support the growth of a sustainable, healthy and active citizenry. Secondly, at both a human as well as urban scale, how the atmosphere and the overall aesthetics of a building can respond to its context. Lastly, how to develop a program into a design and how architectural tools and concepts can support the design process and present its outcome.
