LECTURES (/WEEK)	1x45' blocked as conference	
CURRICULUM or LABORATORY CLASS (/WEEK)	1x45' in blocks as a consultation, in the second half of the semester	
FIELD AND CLASSROOM TRAINING (/WEEK)	none	
METHOD OF END- OF-SEMESTER ASSESSMENT	Mid-year assessment of knowledge in the form of a written assignment during term time. End of the subject with a mid-year mark.	
CREDITPONTS	2 credits	
SUBJECT TASK, BRIEF DESCRIPTION OF THE SUBJECT	The aim of the course is to prepare students to receive professional presentations and conference papers in foreign languages, to record the presentations in a summary and to organise new knowledge. The one-day conference held in the middle of the year provides an opportunity for faculty members and guest lecturers from our partner institutions to present their latest achievements in architecture and building science in Hungarian and English sections. The students will prepare a report on the lectures given, supplemented by a literature review of the given topic - this will be facilitated by the weekly consultation.	
LITERATURE	Umberto Eco (2012): Hogyan írjunk szakdolgozatot. Partvonal kiadó http://mek.oszk.hu/14400/14492/pdf/14492.pdf Kutrovátz Gábor, Láng Benedek, Zemplén Gábor (2008): A tudomány határai. Typotex Kiadó, Budapest	
CONNECTION	Connection: Neptun Knowledge sharing E-learning Online lessons: E-learning - Big Blue Button
